- **Praise for:** Opal Sullen
- **Praise from:** Rafal Wyszomirski
- **Description:** Opal is incredible at spotting things that others miss—details that make a real difference. Time and again, Opal's insights have saved the company significant money, and the latest example of identifying expiring WIP from a Trial in Vernon is no exception. It's not the first time, and certainly won't be the last. Your consistency, sharp eye, and impact are truly appreciated. Thank you for always going above and beyond!
